In honor of Catholic Schools Week, the entire school participated in a service project. We made snack packs for the homeless. Fourth graders were part of the assembly of the snack pack bags. It was a wonderful morning helping those in need. Previously, fourth graders enjoyed a fantastic presentation about the Oriental Stork that lives in Japan from our very own Mrs. Leveille's daughter Danielle. She currently resides in Japan and was back in Chicago for a visit and was kind enough to come in to do the presentation. The students learned about the town that Danielle lives in and about the stork. After the presentation, the students created their own origami storks with paper provided by the town hall of the area in Japan where Danielle lives. In the final picture, students are enjoying a good old-fashioned game of "Duck, Duck, Goose".
